-

[PAGE 2] VISION

Pioneering Architecture for the Era of AGI and Quantum Computing.

We instantly propose and implement next-generation architectural philosophies, maximizing long-term asset value and sustainable societies in the rapidly evolving age of advanced AI and quantum technology.

[PAGE 3] FOUNDER BACKGROUND & BACKBONE

RC Upright Construction Method Developer / Architectural & Infrastructure Consultant

Makito Akatsu, the developer of the *RC Upright Construction Method* (and former CEO of Akatsu Architect & Associates), has been deeply involved in architectural design supervision, comprehensive construction, real estate, energy consulting, and on-site business operations. His expertise spans major Japanese corporations, critical infrastructure, and advanced architectural developments. This innovative system is the culmination of advanced technology and extensive on-site experience.
